THE NEW ERA.

Newmarket, Friday, April 27, 1860.

General Summary.

17. The next Division Court to be held in Newmarket takes place on the 1st of May—next Tuesday.

17. A list of commanding upon the lengthy "Inquisitor Correspondence" of the times, has been unavoidably crowded out.

17. Steps were taken on Friday evening last for the formation of a sub-committee in this Municipality, in connection with the Branch Reform Association of this Riding.

17. The last letter from a correspondent signifying himself "A friend of deceased of thirty years standing," was dated at Aurora. Instead "King" by the printer. A correction was written last week, but by some means was omitted.

17. The regular Quarterly meeting on the Aurora and Newmarket Circuit, in connection with the W. H. Church, takes place in Aurora to-morrow, and next day. Service of Saturday, at 2 p.m.; and at 10 a.m. on Sabbath.

17. The candidates for the representation of East Middlesex—a vacancy having occurred through the untimely death of Mr. Talbot who was a member of the ill-fated Hungarian—now are narrowed down to two—Mr. Craig, Reformer, and H. C. H. Beecher, Ministerialist.

17. The Annual meeting of the Mechanics' Institute takes place in the Court House, on Monday evening next, at 7½ o'clock. As officers for the ensuing year will then be elected, the annual report brought up for adoption, &c., is important to have a general attendance.

17. Our thanks are due to Mr. Geo. Wallis of this Village, for a very excellent course of action in what is commonly called an "English club." He has elicited the necessary apparatus for giving all kinds of exercise &c., and the very best training up a rascal will astonish most people who give him a call.

17. The meeting of the Teachers' Association for this County takes place in the School Room, Newmarket, to-morrow (Sunday), commencing at 10 a.m. We hope all our citizens friendly to education, will make it a point to attend. The "H. S. S." will probably be read immediately after the reading of the afternoon session at 1 o'clock p.m.

17. A correspondent informs us that a local Convention of Sabbath School Teachers will be held at the Village of Loydston on Friday, the 4th of May ensuing. All S. Schools within a circuit of 10 miles from the Village are specially invited to attend. We learn a very interesting meeting will hold recently at Brinstonville, of a similar character, which was well attended.

17. The Spring Show and Plowing Match of King Township Ag. Society took place near Nohlen, on the 19th inst. Owing to indistress and the inclemency of the weather we were unable to attend; but we are glad to learn it was a most successful exhibition. We understand upwards of twenty competitors entered the field of plowing and the work executed admitted to be superior, as a whole, to that of preceding exhibits. We hope the Secretary will forward the names of successful competitors, in time for another issue. East Gwillimbury Plowing Match took place on the 18th instant, on the farm of Dr. E. M. Morton, Queenville. The number of entries were limited; but the class of work performed exceedingly well. One of the judges informed us, that the plowing was superior to what is generally done at matches. After dinner, speeches were made and a good deal of useful information elicited.

17. Dr. Ryerson's new School Law has been introduced. With most of its provisions so far as the common schools are concerned, we agree; but with regard to its Grammar School provisions, relating to their furnishing and maintenance, we regard them tyrannical and oppressive. The Rev. Superintendent has carried out the very idea he promulgated at Newmarket, and which we opposed at the time as unjust, that the City, Town, Village or Township in which a Grammar School is situated, must pay their proportion of the County Tax to make the School free, and then be taxed directly for repairs, apparatus, &c. We shall refer it more to another week—meanwhile we hope our members will endeavor to place the inhabitants of the County upon an equal footing. If any department of our public instruction is to be free, it should be our Common Schools—the poor man's academy, and not free education for those more able to pay.

Upper Canada Cuffed Again.

Another purely Upper Canadian Question has been decided by French votes contrary to the wishes of a majority of western representatives. Some time ago we announced that a bill was before the House, to provide for the election of Reeves by the people direct; and although this measure applied to Upper Canada alone, Mr. Carter's brigade, on the second reading, gave it the go-by. They did not believe the people of the West deserved any such law; neither did they fancy such a change would be for the better. True, they admitted the election of Mayors for Cities and Towns directly by the people, had proven advantageous, as a better and more popular class of men had been selected to fill these important offices; but they could not imagine it would work well to extend the principle to Villages and Townships, and hence they would not and did not grant it! So it is with the whole legislation of the country: every measure must be subject to the whims and fancies of our French neighbors in the East.

Two other important items lately came to light before the House, to add to the array of arguments in favor of a dissolution of the Union—"by hook or by crook." One is, on the 16th instant, Dr. Ryerson, the Chief Superintendent of Education in Upper Canada, stated before the University Committee that there were 1,000 less Common Schools in Lower Canada than in the Upper Province—while at the same time the expenses of managing the Schools under his supervision were about \$1,000 less than in Lower Canada.

The second is the statement made by Mr. Gowan on the floor of the House, that the management of the Crown Lands in Lower Canada cost about \$6,000 more than the receipt! The absurd notion of equality of the expenditure between the two sections of the country is all hubbub under this state of things; yet, this is the precious system Upper Canada Moderates (the name is a misnomer) "delight" in "extolling." Under such circumstances, is it to be wondered that a majority of the people's Representatives from Western Canada unite in endeavoring to cover a connection proving so detrimental to their best interests?—4th Upper Province is forced to pay for improvements in Lower Canada, while the extravagances of the government are producing the most demoralizing results among the people and injuring the credit of the country.—

These are the effects of the Union, and furnish a faint idea of the depth of degradation and filth through which Majoritarians must wade in following. M. Carter & Co.: "The only wonder is, that men can be found at all, in the west, ready to sacrifice the best interests of the country and defend the whole-folks plundering of the Frenchmen in Lower Canada,—and we can only account for it in the same way the thief did for the decision of a jury—they must obtain a portion of the plunder." Self aggrandizement and pocket interests, go the buster of their judgment: the result is observable on looking over the years and mors on any important division of the District Ridings.

17. The last letter from a correspondent signifying himself "A friend of deceased of thirty years standing," was dated at Aurora. Instead "King" by the printer. A correction was written last week, but by some means was omitted.

17. The regular Quarterly meeting on the Aurora and Newmarket Circuit, in connection with the W. H. Church, takes place in Aurora to-morrow, and next day. Service of Saturday, at 2 p.m.; and at 10 a.m. on Sabbath.

17. The candidates for the representation of East Middlesex—a vacancy having occurred through the untimely death of Mr. Talbot who was a member of the ill-fated Hungarian—now are narrowed down to two—Mr. Craig, Reformer, and H. C. H. Beecher, Ministerialist.

17. The Annual meeting of the Mechanics' Institute takes place in the Court House, on Monday evening next, at 7½ o'clock. As officers for the ensuing year will then be elected, the annual report brought up for adoption, &c., is important to have a general attendance.

17. Our thanks are due to Mr. Geo. Wallis of this Village, for a very excellent course of action in what is commonly called an "English club." He has elicited the necessary apparatus for giving all kinds of exercise &c., and the very best training up a rascal will astonish most people who give him a call.

17. The meeting of the Teachers' Association for this County takes place in the School Room, Newmarket, to-morrow (Sunday), commencing at 10 a.m. We hope all our citizens friendly to education, will make it a point to attend. The "H. S. S." will probably be read immediately after the reading of the afternoon session at 1 o'clock p.m.

17. A correspondent informs us that a local Convention of Sabbath School Teachers will be held at the Village of Loydston on Friday, the 4th of May ensuing. All S. Schools within a circuit of 10 miles from the Village are specially invited to attend. We learn a very interesting meeting will hold recently at Brinstonville, of a similar character, which was well attended.

17. The Spring Show and Plowing Match of King Township Ag. Society took place near Nohlen, on the 19th inst. Owing to indistress and the inclemency of the weather we were unable to attend; but we are glad to learn it was a most successful exhibition. We understand upwards of twenty competitors entered the field of plowing and the work executed admitted to be superior, as a whole, to that of preceding exhibits. We hope the Secretary will forward the names of successful competitors, in time for another issue. East Gwillimbury Plowing Match took place on the 18th instant, on the farm of Dr. E. M. Morton, Queenville. The number of entries were limited; but the class of work performed exceedingly well. One of the judges informed us, that the plowing was superior to what is generally done at matches. After dinner, speeches were made and a good deal of useful information elicited.

17. Dr. Ryerson's new School Law has been introduced. With most of its provisions so far as the common schools are concerned, we agree; but with regard to its Grammar School provisions, relating to their furnishing and maintenance, we regard them tyrannical and oppressive. The Rev. Superintendent has carried out the very idea he promulgated at Newmarket, and which we opposed at the time as unjust, that the City, Town, Village or Township in which a Grammar School is situated, must pay their proportion of the County Tax to make the School free, and then be taxed directly for repairs, apparatus, &c. Morton, Queenville. The number of entries were limited; but the class of work performed exceedingly well. One of the judges informed us, that the plowing was superior to what is generally done at matches. After dinner, speeches were made and a good deal of useful information elicited.

17. Dr. Ryerson's new School Law has been introduced. With most of its provisions so far as the common schools are concerned, we agree; but with regard to its Grammar School provisions, relating to their furnishing and maintenance, we regard them tyrannical and oppressive. The Rev. Superintendent has carried out the very idea he promulgated at Newmarket, and which we opposed at the time as unjust, that the City, Town, Village or Township in which a Grammar School is situated, must pay their proportion of the County Tax to make the School free, and then be taxed directly for repairs, apparatus, &c. We shall refer it more to another week—meanwhile we hope our members will endeavor to place the inhabitants of the County upon an equal footing. If any department of our public instruction is to be free, it should be our Common Schools—the poor man's academy, and not free education for those more able to pay.

17. The Spring Show and Plowing Match of King Township Ag. Society took place near Nohlen, on the 19th inst. Owing to indistress and the inclemency of the weather we were unable to attend; but we are glad to learn it was a most successful exhibition. We understand upwards of twenty competitors entered the field of plowing and the work executed admitted to be superior, as a whole, to that of preceding exhibits. We hope the Secretary will forward the names of successful competitors, in time for another issue. East Gwillimbury Plowing Match took place on the 18th instant, on the farm of Dr. E. M. Morton, Queenville. The number of entries were limited; but the class of work performed exceedingly well. One of the judges informed us, that the plowing was superior to what is generally done at matches. After dinner, speeches were made and a good deal of useful information elicited.

Amusements.

Why are pretty girls' eyes like an ostrich's? Because they are apt to give the heartburn.

What's the last word, your honor, that the man was intoxicated in not by any means. But this will say: When I last saw him he was washing his face to a red paddle and drying it on the door mat.

A. A. Palmer, angling in the rain, was observed to keep his line under the arch of a bridge. Upon being asked the reason he replied: "Sure lad won't the fishes be crowding there to keep out of the wet, ye spalpeen."

Some tasteful individual very correctly remarks that the best lip salve in creation is a kiss. This remedy should be used with great care, however, as it is apt to bring on an affection of the heart.

Mr. Buchanan, M. P. P., has offered to give up Cleveham, Park during the period of the visit of his Royal Highness, the Prince of Wales, should the Government decide on Hamilton as the most desirable place of residence for him.

Domestic Recreations.

To WHITEN THE TEETH.—Mix honey with finely powdered charcoal, and the paste will whitewash.

To PREVENT MOTHS IN CARPETS.—Rub or steep around the edge of carpets and on them salt and pepper, and they will not eat them.

PAU-ACHE IN CHILDREN.—The ear-ache is usually caused by a sudden cold. Stean the head over hot herbs; bathe the feet, and put into the ear cotton wool wet with sweet oil and paragonie.

PIR CAKE.—One pint of dough, one teaspoonful of sugar, one-eighth of butter, three eggs, one teaspoonful of brandy, with the addition of a pint of raisins and spices.

Boiled POTATO, PUPPING.—Eight potato-sized quarters of a pound of butter, one gill of milk, four eggs, and as much flour as will take the whole into a very stiff batter.

MINT SAUCE.—Take a bunch of spearmint, wash it entirely free from grit. Chop it fine, and mix with it one gill of vinegar, and a quarter of a pound of sugar. This sauce is to be eaten with roast lamb.

TRACCO PAPER.—Mix together by a gentle heat one ounce of Canada balsam and a quarter, or a pint of spirits of turpentine; with a horsehair brush paint it thinly over one side of good tissue paper. It dries quickly, is very transparent, and is not grey—therefore does not stain the object upon which it may be placed.

To REMOVE GREASE FROM BOOKS.—Lay upon the spot a little magnesia, or powdered chalk; and, under it, the same; set on it a warm flat iron, and as soon as the grease is melted, it will be absorbed, and leave the paper clean.

PLASTERING.—We would respectfully inform our subscribers that we will do all of their "plastering" this spring, on the following terms:

A first class puff—One fine hat.
Second, " " One pair of boots.
Third, " " One pair of fine shoes.
Fourth, " " One silk cravat.
Fifth, " " One baby frock.
Common puff, " " One diaper pin.

The last named article must be made of silk, and warranted not to scratch. Any of the above articles can be left at the office.

For Railroad jobs, we charge through tick-

ets.

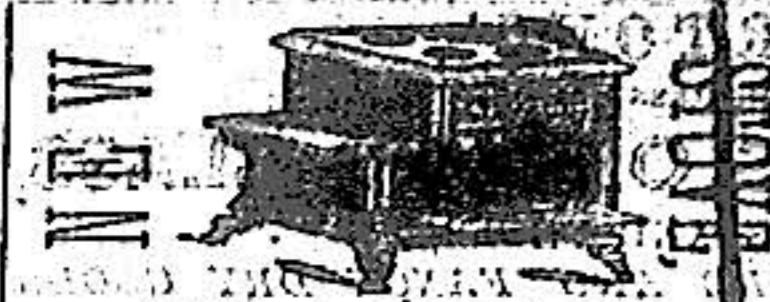

Agricultural.

Culture of Flax.

We clip the following from a report of the Niagara County, N. Y., Agricultural Society, which appeared in the Lockport Journal last week:

Mr. William Robinson presented the following communication for the consideration of the farmers of Niagara County, upon the culture of flax.

I was formerly engaged in the raising and managing of flax, and have drawn the following conclusion: First—the soil best adapted to its culture, is a rich loam; but it will succeed well on almost any soil except sand, provided it be high or lily-laid—it will not grow well on low lands or on the borders of streams or rivers. The seed being small, it must not be placed deep in the ground. I would recommend the ground to be well plowed, and thoroughly pulverized by dragging before sowing, and very lightly dragged in after sowing. The earlier sown in the spring, after the ground is fit to work, the better. One bushel of seed to the acre is the best amount of seed to ensure a good yield of seed and lint; if a less quantity of seed be sown, the quantity of seed would be increased, but the quality of lint would be lessened—and if a little more seed be sown, the lint would be increased, but the seed would be lessened. On low lands the flax is subject to mildew or rust which is of two kinds—the red rust which destroys both seed and lint, and the black rust which affects the stem of the flax and destroys the lint this is the great enemy of flax-growing, but on elevated or lily lands it is very seldom attacked with either of these kinds of rust. Flax succeeds best after corn or potatoes, or such crops as have been cultivated the previous year, so as to destroy weeds. The ground cannot be too rich yet it must not be made so by manuring the flax ground with manures filled with seed of grass and weeds, which would spring up and destroy the crop. There're I would not recommend manuring the flax ground the season it is sown, except with the following stimulants and manures, to wit: To each acre of land apply one bushel of plaster of Paris, one bushel of fine western salt, one bushel of wood ashes, one bushel of slacked lime—of course varying these manures according to the nature of the soil. If it be a light loam mixed with gravel or sand, leave out the lime; if it be a tenacious soil bordering on clay or sandy soil, be sure and put on the lime. The salt and ashes in the quantity mentioned, are not only manures but a preventive to the operations of the worm which is often very destructive to flax. Plaster is a strong stimulant, and is invaluable on dry soils by its attractive principles for moisture. The expense of getting in a crop of flax is about the same as oats. The expense of land, plowing usually is \$3 per acre; thrashing the seed and cleaning, \$1 per acre; dew-rotting and taking it up, \$1 per acre; and dressing at the mill, from \$2 to \$2.50 per hundred lbs. of flax. The average quantity of seed raised is 8 bushels per acre, and the average quantity of flax is 250 lbs. per acre—although this last frequently less, more than double, both in seed and lint. The average price of seed is \$1.25, and the average price of lint is 9¢. per lb.

TIN & COPPER WAREHOUSE.

Directly opposite the North American Hotel, Main-Street.

NEW MARKET.

The Undersigned, in returning thanks for the very liberal patronage received since his commencement in business, respectfully estimates that he has just received a large and varied assortment of COOKING, BOX, PARLOR, HALL AND BED-ROOM STOVES,

Which will sell at the lowest remunerative prices. Constantly on hand, all kinds of Tin Ware, having added to his stock the whole of the EXTENSIVE ASSORTMENT OF

TIN-WARE, &c.

Embracing the Stock-in-Trade of Mr. George Munro, the whole will be displayed at

GEORGE T. COOPER.

Also a hand, complete equipment of

Domestic Articles.

Patent, 1 patent.

IMPORTANT TO SHOE MAKERS.

THE Undersigned wishes to inform the Trade in general that he has bought of Mr. Thomas Christie's Patent, the full right to York and Salt in the North Riding of York, the improved method of

CUTTING AND CRIMPING.

The great advantages derived from this Patent is, that Crimping in the usual way is entirely done away with, Crimping Machines and Blocks are not required. There is also a saving of three to four fourths in one side of upper. This fact alone is well worthy the attention of those who belong to the Trade. Our experience in the business warrants us in saying that this improved method is of great benefit to the Trade than anything yet introduced. The above Patent Right was granted April 5th, 1859. Persons in the Trade wishing to purchase Shop Rights, will please address to the Undersigned.

THOMAS HIGGINS,
Boot and Shoe Maker,
HOLLAND LANDING, Jan. 2, 1860.

Toronto, Dec. 29, 1859.

The Great English Remedy

SIR JAMES CLARKE'S

Celebrated Female Pills.

PROTECTED BY

LEAVES

PATENT,

ROYAL

CHARLES

PREPARED from a prescription of Sir James Clarke, M. D. Physician Extraordinary to the Queen. This invaluable medicine is unequalled in the cure of all those painful and dangerous diseases incident to the female constitution.

It moderates all excesses, restores all obstructions, and brings on the monthly period with regularity. These Pills should be used two or three times a day, in confinement, to fortify the constitution, and lessens the suffering during labor, enabling the mother to perform her duties with safety to herself and child.

In all cases of Nervous and Spinal Affections, Pains in the Back and Limbs, Headiness, Fatigue or Slight Excitation, Palpitation of the Heart, Loss of Spirits, Headaches, Stomach Complaints, &c.

BALMORAL BOOTS,

Of superior quality, together with Boots and Shoes of almost all descriptions.

A. Call it respectfully solicited, &c.
